

Fall Vocabulary Board

Items used to make this Project:

- CD-110047 Fall Mini Bulletin Board Set
- Construction paper
- Marker and paper (or computer) to make labels
- Glue or tape
- Hook-and-loop tape

Directions: Lay the construction paper horizontally on a flat surface. Punch out the Fall Mini Bulletin Board Set. Glue or tape as many of the larger pieces as will fit onto the paper, reserving the individual leaves for identification purposes. Make word labels for fall pieces within the scene (such as squirrel, acorns, pumpkins, scarecrow) and glue or tape to a leaf from the set. Place hook-and-loop tape on the backs of the leaves as well as near the coordinating bulletin board pieces. Match the leaves to the correct pictures.
