

★ **Featured Display: Mascots and More**

Furry Friends™ love to cheer kids on to learning success! Use them to create classroom displays and endless learning activities. Display your friends to showcase student work, introduce subjects, post job charts, hold important announcements, and provide words of inspiration. You can add a 3-D effect by attaching foam core or cardboard to the back of each friend before mounting to the display. Use the included speech balloons for phrases that support your bulletin board theme. Be sure to have a Furry Friends™ naming activity, and invite students to create stories about each of these irresistible characters!
