

## Furry Friends™ Monthly & Seasonal Headers T-8732

### ★ Featured Display: Seasonal Celebrations

Create a display that celebrates and teaches the seasons and months. Divide your display into four areas, each titled with one of the season headers from this set. Group the months that make up each season under the appropriate header. Display a Calendar Grid for the current month, completed with dates, special days, and birthdays. Spark a class discussion about each season and seasonal activities, and use the discussion to launch an art project where students create small artworks symbolizing the seasons. They'll be thrilled to see their artwork completing the display.
