

## Monkey Mischief™ Birthday Bunch T-8746

### ★ Featured Display: Bananas for Birthdays!

This birthday display, bursting with bananas, helps students practice the month names and their sequence. Create a display headed with the Happy Birthday sign. Display all the months, in order. Write student names on bananas, and add them to the display, grouped by birth month. In addition to teaching the months, you can use birthdays to spark a graphing exercise for math practice, or do a spot-check on math concepts such as greater than and less than.
