

# School Center Signs

Create an interactive classroom organizer that promotes independent learning and responsibility.

## ★ Featured Display

Here's a hands-on way to track students in learning centers. Display the learning center signs and leave space under each. Students write their names on handprint accents. Store accents in a construction-paper pocket taped to the display. Before going to a center, the student puts his or her name accent beneath the center sign. Afterward, the accent goes back in the pocket.
