

Alpha-Beads 12 Monthly Headers

Visual clues and original designs reinforce time and calendar skills with this interactive display idea.

Featured Display

Help students grasp the concept of time with a timeline. Display the monthly headers in this set across your board to help students visualize the sequence. List on Mini Accents any upcoming class activities for the school year, and add to the timeline. At the end of each month, students add their work to highlight the subjects, activities, and special projects accomplished that month. As an alternative, create a shorter timeline using a season header. Your class will use the timeline to plan ahead and track their accomplishments.
