

# Geometric Shapes

Reinforce learning with creative expression, and celebrate everyone's efforts with a lively display.

## Featured Display

Give students a hands-on experience making their own unique shapes. Provide construction paper and whatever craft supplies you have on hand, such as yarn, glitter, colored glue, craft sticks, buttons, pipe cleaners, straws, sponges, and paint. Students combine basic, geometric shapes to create their own one-of-a-kind shapes. For example, a square and a triangle might make a "squangle." Label the shapes and display them on your board. Study and discuss these original works of art, and then decide what real objects may match these fun new shape creations.

## You'll need

- T-8708 Geometric Shapes**  
*Mini Bulletin Board Set*
- T-85033 Shapes**  
*Bolder Borders®*
