

Writing Process

Make writing an adventure with this interactive display that provides tips and tracks student progress.

Featured Display

Place the complete treasure map in the center of your display. Separate the area around the map into four sections using yarn and push pins. Write the process steps on pencil accents and put each in a section. Frame the display with trimmers. Students write their names on footprint accents, and pin them in the Prewriting section. As students complete each step of the writing process, they move their footprint names. Publish finished works on a separate display.

You'll need
