

Let's create colors Game

Items used to make this Project:

- CD-110042 Colors Mini Bulletin Board Set
- DJ-620020 Crayons Colorful Cut-Outs (Assorted Designs)
- Construction paper
- Glue or tape
- Loose leaf book rings
- Posterboard

Directions: Punch out the mice and the color labels from the Colors Mini Bulletin Board Set. To create the title sheets, print the words "Let's", "Create", and "Colors" horizontally. Glue or tape the three sheets horizontally to construction paper. Use a hole punch to make holes in the left middle of each title sheet. Using a different color of construction paper, punch holes on the left middle of three sets of eleven sheets. Angling the crayons up on eleven sheets and down on eleven sheets, glue or tape a Crayons Colorful Cut-Out to the construction paper. The last set of eleven pieces of construction paper gets a mouse and a matching color label glued or taped to each sheet. Stack the title page with the word "Let's" and the pages with the crayons angled down. Stack the title page with the word "Create" and the pages with the mice and the color labels. The last stack is the title page "Colors" and the pages with the crayons angled up. Cut the posterboard vertically to be slightly larger than the three stacks of paper laid out one on top of the other. Punch holes in the posterboard to match the holes in each of the three stacks of papers and insert a loose leaf book ring. The sheets of paper are opened to a crayon on the top sheet, a crayon on the bottom sheet and the color that those crayons make when mixed together represented on the middle sheet.
